

## SMART INVOICE MANAGEMENT

osf.digital

### RAPID INVOICE ACCESS UPON CHECKOUT

Automate invoice processing for your online store by connecting your Salesforce Commerce Cloud with Paperless – Latin America’s leading electronic document solution for the generation, processing, and management of invoices. Our product, Integrator for PAPERLESS reduces the amount of time you’ll spend searching for and retrieving documents.

Empower your customers to go online and choose the invoice type they need and offer them a solution that delivers immediate access to their billing records. Integrator for PAPERLESS is flexible enough for application in both B2B and B2C environments.

# FEATURES & BENEFITS

## MINIMIZE EXPENDITURES

Save up to 80% by using electronic invoices compared to managing these documents manually ([e-Invoicing Basics](#)). Eliminate expensive postage costs related to mailing invoices to customers, as well as any associated storage and document processing expenses.

## EASY DATA MANAGEMENT

Switch from traditional paper-based invoices that have a higher risk of getting lost, to electronic invoices. Store your invoices more securely and conveniently access invoice data whenever you need it.

## REAL-TIME VISIBILITY

Allow customers to view their invoices after they complete the checkout process and provide registered users with access to their past invoice data in the order history.

## MEET ALL YOUR CUSTOMER'S NEEDS

Let your online shoppers select the invoice type they wish. Offer a detailed electronic invoice for your B2B customers, or an electronic shopping receipt for your B2C customers.

## CONVENIENT SHOPPING

Provide visitors to your website with the option to proceed as a guest shopper, reducing the time required to enter their personal information and speeding up the time to reach the checkout page.

## GO GREEN

Paper invoices are responsible for 10% of all trees cut down worldwide ([Greencarrier](#)). By using electronic invoices, you may reduce your carbon footprint by roughly 60% compared to paper invoices ([Finance Finland](#)).
