FEATURES & BENEFITS

A NEW OPTION

Salesforce Commerce Cloud users can now use Webpay as a payment gateway.

SECURE

No credit card information is stored.

PAYMENT THROUGH BANK

Upon confirming their selection, the customer is redirected to the Transbank website, where they will enter their credit card details.

PAYMENT STATUS

The result of any transaction will redirect the customer back to the merchant's website, either on Order Confirmation page for successful transactions, or on the Cart page with an error message describing the payment failure.
