Integrator for
Webpay
A Payment Cartridge for Chile

Integrator for Webpay is a **Storefront Reference Architecture (SFRA)** compatible cartridge designed to help merchants in Chile integrate their Salesforce Commerce Cloud-based ecommerce site with Webpay Plus, an online payment solution from Transbank, one of the most popular payment service providers in the region.

Offer your customers flexibility through payment options that are familiar to them. Integrator for Webpay empowers you to seamlessly integrate the Webpay Plus payment gateway with your Salesforce Commerce Cloud online store and allows your customers to pay with credit cards, debit cards as well as other payment options specific to Chile.

FEATURES & BENEFITS

SEAMLESS INTEGRATION

Merchants in Chile selling on a Salesforce Commerce Cloud-based ecommerce store can now easily integrate Webpay Plus as one of their **payment gateways.**

SFRA COMPATIBLE

Compatible with SFRA, Salesforce Commerce Cloud's new customization model and blueprint for site design that builds websites faster and has hundreds of out-of-the-box features.

EXTERNALLY HOSTED CHECKOUT

After selecting Webpay Plus in the payment step, shoppers are **redirected to the Transbank website,** where they will have to select their preferred payment method – credit card, debit card, prepaid card.

SECURE CHECKOUT

Our cartridge, Integrator for Webpay, **doesn't store** any credit card information and before finalizing the purchase on the Transbank website shoppers need to authenticate with their card details.

PAYMENT STATUS

The shopper will be notified of the status of the transaction and redirected back to your website, either to the **Order Confirmation page** for successful transactions, or the **Cart page** with an error message describing the reason for their failed payment.
