CALENDAR PRO
Shared Calendar for Salesforce

One-third of companies today are focused on how to **improve app adoption**. 94% of high-achieving organizations are concentrating on **integrating data** and driving **visibility across sales,** marketing, and service channels. OSF has developed an intuitive and simple way to **gain complete visibility** of your team members' **availability** and **schedule** via an easy to use app.

OSF Calendar Pro for Salesforce is a **custom-tailored, downloadable application** that is **now** also available as a **Salesforce1** menu item. The app enables Salesforce users to **create**, **customize** and **visualize** their **Appointments, Tasks**, and **Emails** in a calendar view–from both their desktop and mobile devices. Calendar events are tied to customer data in Salesforce which **increases visibility, reduces response time and streamlines internal workflows.**

FEATURES & BENEFITS

Accessing different types of data 30%*, poor or inconsistent quality data* 28% *and reconciling data from different sources* 18% *are the top three barriers to gaining greater insights from Salesforce data.*

(Forbes)

UNIFY ACTIVITIES' VIEW

Increase productivity among multiple Salesforce users with a unified calendar view. Create Appointments, Tasks, and Emails associated with customer records directly in Salesforce through the (+) button, and organize them by day, week or month.

GET FULL VISIBILITY

Streamline internal flows by having a complete view of all calendar activities and gain centralized control over their status. Increase visibility of Event details by hovering over individual events.

IMPROVE PERFORMANCE

Easily integrate and customize what information is to be displayed for an Activity. Color code different Types of Salesforce Activities and Users.

LEVERAGE RESOURCES

Manage your resources and stay up to date with the status of your CRM users' Appointments, Tasks and Emails through the Legend. Reliable planning and scheduling will save hours of your valuable time by making your daily workflow easier.
