CUSTOMIZATION Services Available

FEATURES & BENEFITS

| | |
|-----------------------------|---|
| SFRA COMPATIBLE | Integrator for CANADA POST is compatible with SFRA , Salesforce Commerce Cloud's new customization model and blueprint for site design. |
| BUSINESS MANAGER MODULE | All the information related to Canada Post, including product and parcel weight is stored in Business Manager, under Custom Preferences. |
| AVAILABLE SHIPPING SERVICES | In the shipping section on the order page, customers can see all Canada Post options related to their cart contents and address. |
| NEARBY POST OFFICES | The integration between Canada Post and Salesforce Commerce Cloud can show the customer nearby post offices if they enter their postal code in the shipping section. |
| GOOGLE MAP WITH PINS | The map is connected with the nearby post office panel. Whichever post office is selected will be used for delivery. |
| ADDRESS AUTOCOMPLETE | The cartridge enables the option for an address autocomplete on the billing/shipping sections on checkout. Results are displayed as a drop-down hint. When selected, the other address fields are autocompleted. |
| SHIPPING RATES | Customers have the option to calculate the shipping rate by clicking on a button on the checkout page. The rate is calculated by taking into account all information about address, shipping options, and package details. |
| TRACKING INFORMATION | Customers can track their orders shipped with the Canada Post option by using a tracking number from the order details page in their account. Guest users can also track their orders using their order number and billing postal code on a form that appears as a popup on the website. |
| GENERATING RETURN LABEL | Merchants can generate a Return Label in Business Manager, so customers can return products. |
| REPORTING TAB | The cartridge enables a reporting tab , where a list of all orders made with Canada Post shipping is available. Each order displays a button to create a return label. |
| PACKAGING OPTIONS | Merchants can select various options , including packaging, from the Business Manager Shipping Services Configuration tab in the Canada Post module. |
