GIVE CUSTOMERS WHAT THEY WANT!

Customers are seeking **convenience** and anything that helps to save them time will be met with enthusiasm. Merchants are looking for a low effort method to generate **stable revenue** and manage their **stock levels**. To satisfy both groups, we've developed Smart ORDER REFILL 2.0, a smart addition to your online store providing shoppers with the ability to set up **order replenishment** and manage orders on their terms.

Smart ORDER REFILL 2.0, the latest version of our popular Salesforce Commerce Cloud cartridge gives customers the opportunity to **automate their recurring purchases** using a subscription program. This product is now **SFRA** compatible, has a new updated design and offers many new impressive features. Focus on attracting new customers and keep your existing ones satisfied by adding a subscription program to your online store.

FEATURES & BENEFITS

SFRA COMPATIBLE

Smart ORDER REFILL 2.0 is now compatible with SFRA, Salesforce Commerce Cloud's new customization model and blueprint for site design that builds websites faster and has hundreds of out-of-the-box features.

UPDATED DESIGN

This new version comes out-of-the-box with an updated design of the subscription option on the storefront's product and checkout pages, the customer's orders dashboard, and the merchant's reporting module.

COMMITMENT SUBSCRIPTIONS

Shoppers can now benefit from better deals if they commit to a subscription for a specific timeframe that you've set. This option minimizes the risk of canceled subscriptions and helps you to rely on secure revenue.

REPORTING MODULE

You can now search and manage all subscription orders and view details about each one including the products in the order, order status, beginning and end date, and the recurrence interval.

SALES CONTINUITY

Customers can automate orders for the products they purchase most often, according to their desired interval, helping you to increase your customer retention rate and build loyalty.

TARGETED CAMPAIGNS

A loyal customer is a returning customer. Create groups of customers so you can send special promotions, offer free shipping and even provide free samples.
