Your B2B Order Portal For A Flawless Buying Experience

Digitize orders in just 2 weeks

WHY SHOULD YOU CARE ABOUT BUILDING YOUR OWN ORDER PORTAL?

The B2B buying experience is complex and can become overwhelming for buyers and merchants.

Need to shorten the time spent keying in online orders? One Page Order is the ideal option. It's a hassle-free implementation that gives your customers options. It's easy to understand and use as for B2B ecommerce. But it also lets customers choose to use a CSV file for large wholesale orders.

Start your digital transformation journey with the B2B order portal with **flexible order entry** that your clients deserve.

WHAT'S IN IT FOR YOU?

Benefits

Want to get ahead of your competitors with a B2B order portal? Then One-Page Order is an inexpensive enhancer that will help you jump ahead in the B2B ecommerce game.

Launch your **own B2B order portal**, fast and cost effectively.

Speed up the order process for buyers.

Reduce manual effort on order processing.

Improve your **buyer's experience**.

Shorten the time spent keying in online orders.

HOW DO YOU GET STARTED?

One Page Order

One-Page Order puts all your order information on a single page, just like an invoice. Easy to read. Easy to use. Easy to understand.

One-Page Order uses Salesforce Commerce B2B Lightning, transforming it into a B2B order portal that customers enjoy using. Change the B2B buyer's journey to make it as easy and intuitive as any online retail site.

Make it intuitive - to speed up the order process for buyers. Reduce manual effort on order processing, while improving your buyer's experience. One-Page Order is a fast, risk-free implementation that makes it the ideal choice for business to business merchants.

The only online marketplace natively built on Salesforce Commerce and Experience Cloud platforms

FEATURES

Help buyers find the right product faster
